

FOUNDATION

This term in Foundation we have been transforming our classrooms into Fairy Tale land! Here are some of our wondering questions about fairy tales:

- I wonder why is the wolf so scary? **Goldie**
- I wonder why the Gingerbread man trusted the sneaky fox? **Ted**
- I wonder why Ariel had a tail? **Emma**
- I wonder why the troll stopped the three goats from going across the bridge? **Cruz**
- I wonder if princess Jasmine ever gets married? **Jasmine**
- I wonder why the three little pigs didn't lock their door? **Byron**

The Foundation students also celebrated their 100th day of school by dressing up as anything to do with 100! We explored the number 100 and different ways to count to 100.

YEAR 1

Dinosaur Diggers Incursion

WOW! Look how HUGE this dinosaur foot is compared to my foot.
By Evie S, 1B

Woo Hoo! We found some fossils and animal teeth. My favourite were the shark teeth. They were a bit sharp.
By Matthew B, 1B

WOW! Look at that giant T-Rex head! That was so cool. By Ruby W, 1B
Look at this humungous fossil. Inside it had about 60 sharp teeth. By Jessica M, 1B

Here we are looking for fossils. I found a shark tooth. It was cool.
By Scarlett S, 1A

ARGH! There's a fossil about to eat me!!!! Just kidding. It was only a fossil that turns into rock.
By Mark P, 1B

Sizzling Start for Dinosaur in the backyard

OMG! If this happened to someone else they would cry, but I'm brave enough to handle this by myself. It was a triceratops! It was stabbing my trees and they fell on my neighbours. The neighbours said, 'Get off the lawn!'
By Tommy M, 1A

Sizzling Start for a Picture Prompt

Ahhhh! Look Dad, there is a Tyrannosaurus Rex! It is really BIG! It is going to eat us! Run!!!! Phew, that was close. I can't believe we saw a real T-Rex.
By Max H, 1B

Here I am beginning to run like the dinosaur stampede. The stampede was very noisy and the lady was very funny.
By Archie A, 1A

I was roaring like a T-Rex.
By Lucy V, 1A

Dinosaur Incursion Recount

OMG! I can't believe I found real fossils! I saw one dinosaur egg. It was amazing because it was bigger than a chicken egg. I smelt dinosaur poo, it was gross. I learnt that T-Rex's are very dangerous. My favourite part was seeing the T-Rex head.
By Abbie McC, 1A

OMG!!! I saw loads and loads of dinosaurs. I saw a T-Rex toy, it looked really scary to me. I heard a noise, it was a dinosaur AAAAAA! I felt a huge dinosaur skill. His name was Tom the T-Rex. The mum T-Rex is bigger than a dad T-Rex.
By Asha S, 1A

YEAR 2

The Year two's had a fun cultural day. We got to dress up from our continent, we learnt dances from other countries and we got to cook and then eat fried rice and gingerbread. It was a great day!

Remi and Leah 2A

Did you know that the United Kingdom can fit into Africa over more than 120 times? Kai 2A

Did you know that Mount Everest is about 60 million years old.? There has been fossils found on it. Finnian 2A

Mmm I love the yummy food in Europe. Wow, it would be so great. We have to go to Europe to try it. Imagine having waffles for breakfast every day. Josh 2B

"Mum. Look at that crown!" Mum, if you take me to Europe we can see the Crown Jewels and they're very pretty. You couldn't see something that cool in Melbourne. Michael 2B

Swimming

I hopped in the pool with my clothes on. We swam two laps then we had to tread water for 5 minutes. By then I was panting. 4 minutes had past I knew I could do it but I was so tired! RING!!! The 5 minutes was up. I was relieved! But we still had to take our clothes off in the water. That wasn't easy. Still panting. I hopped out of the pool. I did it. Jack 2B

Splash! Sloosh! Just a reminder that swimming is on! Don't forget to bring your bathers, towel, swimming cap and goggles! You can dive in and have fun and learn at the same time. So come to swimming. When I was at swimming I learnt how to do freestyle and survival kick with chicken arms and got water pies in my face. You clearly see swimming is where you should be. Zoe 2B

Splash! Falling in at the deepest end with my clothes on! Going under the water! Doing breaststroke, floating and doggy paddle. Getting out of the water. Getting things wet! Sitting next to my best friend on the bus playing games. Swimming is the BEST! Ethan 2B

Science Day Fun!

Art Show

Yay! I made a treehouse. I am going to play with my toys in it. It's for my special toys. Elizabeth 2C

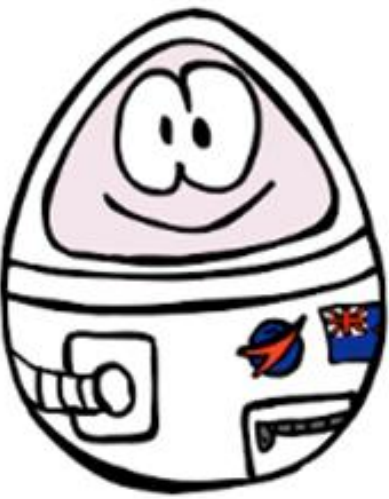

Come on, let's make those treehouses! I am so excited. Stickers, cardboard, string, shiny stuff, buttons, colourful sticks, paper and painting walls. We made ladders for our treehouses. I put books in mine, a seat, carpet, a computer, stickers, a bed, some buttons and one shiny thing. Jiali 2C

Ehh, this is so boring. Oh, what are we doing? That's it! I quickly start running to school. I go to the Art Show and I see some things I can't describe. Evil robots, papier mache pigs, silhouette animals...this is AMAZING! Lucas 2C

YEAR 3

SCIENCE

Calling all Astronauts! Our year 3 mission was to design and build a capsule that will protect an egg from the perils of re-entry (dropped from a large height). The objective was to have our Eggonaut survive a fall from a

Benson— The pointy wire on the end of my capsule absorbs the impact. The wings help make the tip face toward the ground in the air.

Airlie — I have used a large plastic bag as a parachute and a small cardboard tube to protect the egg.

Scarlett— I think my capsule will work because the parachute will make it stay in the air longer.

Metaiah— I used large plastic drinking straws hoping that they protect the egg and absorb the shock.

Darcy— The egg will be secure inside the ball and the hay will protect the egg from the impact.

Zach— I think the balloons will help keep the parachute up in the air.

Montana— I used 4 balloons to help try keep it in the air and protect the egg when it hits the ground.

YEAR 4

THE MAGIC PUDDLE

Channel 9 news right here, right now. 2 kids gone missing the age of 4, last seen 7 days ago having the time of their lives jumping in a mystery puddle. The puddle has been there for two weeks, through sun and rain! That's all the news we have for now. 9 news OUT!!

"I'm so worried about little Millie and Milo." Sobbed Jemma. "I can't believe they have been missing for more than a week!" Dan yelled angrily. Jemma and Dan were furious!! "Let's go look for our kids near the puddle!" Jemma retorted. "Sure, but I don't think we will find them." Dan announced sadly.

"Ok! We can get in the car now." Yelled Jemma. Broom! Broom, the car went as if it was a lawn mower. Along the sidewalk, there was a puddle. Screech! The car was quite old so it made a loud noise when it stopped. Anyway, the car was parked right next to the puddle. Just as Dan and Jemma got out of the car something monstrous happened! "THE PUDDLE IS ALIVE!" Dan shouted.

The puddle started to shoot water out of it then, 2 kids!! "There is Millie and Milo!" Dan and Jemma yelled excitedly! "But! They're FLYING?!" Dan was very confused. The kids gave their parents a BIG thumbs up! "Hi mum and dad! We have superpowers!! Milo was a superhero! "Yeah and we can stop water by freezing it and the sun evaporates it!" Millie shouted.

"Um... MILLIE! We need to save the world! Milo yelled crazily. "You stay right here while we SAVE THE WORLD!!!!" Millie screamed to her parents. "Come on Millie!! People are relying on us!" Called Milo. "OK!! You don't have to shout." Responded Millie. "I WILL FLOOD THE WHOLE ENTIRE WORLD!" The puddle started shooting out more and more water per second. "I'll freeze the puddle and you tell the sun to evaporate it FAST!!" Milo said like no one was watching. "OK". Millie was ready to fight and was raging with anger.

"SPLASH! SPLASH! SPLASH!" The puddle splashed anyone or anything that got in its way. First he flooded Europe, then America, then Asia, then Africa and finally Australia! Everyone was PANICKING! "SSSHHHHHHH!" Milo froze the puddle! "MILLIE!!" Now Milo was panicking. "Hey sun! Can you please evaporate all that ice down there?" Cried Millie to the sun. "OK MILLIE!" The sun replied. "KABOOM!" All the ice was evaporated!

"BOOYAH! Take that puddle!" Millie and Milo got rid of the puddle!!!! "HIGH FIVE!!" They said together. "Good job Millie and Milo!!" Mum and Dad were so proud!

Art show

On the 13th of September we had the amazing art show. The Year 4 teachers and students made past and present TVs with a Brady Bunch theme. The students in every class made an art piece and the teachers made incredible pieces of art to sell off in the silent auction. There was also a delicious cake stall – yum!! Here is pictures of our TV's.

By Tyson and James

Camp!

The bus was a bit of disaster because everyone and I mean everyone was singing. Guess what the song was? The wheels on the bus.... it was terrifying! The giant swing was incredible and the flying fox was top notch. The race around camp you ask? Don't get me started... it was super competitive. Remember that sneaky fox? Jokes! It was those sneaky teachers you need to watch out for. That's what you get for leaving your door open I guess, but at the end of the day they all got their pillows back. That was our camp experience. Over and out.

By Van and Cooper 4A

SWIMMING!!!

Have you all enjoyed swimming these last few weeks? Well we know we have! What was your favourite day of swimming? Our favourite was water safety day. Some of the activities we did was make a rip. We all ran in a circle and when the instructors told us, we would jump up, let go and float on our backs and be spinning around in a circle. Our next activity was saving someone and helping them into shore. We all stood in two lines. One person would jump in the water and the person behind them would throw a pool noodle at them and they would swim back to shore.

By Billy L and Rowan

Year 4 science dome incursion

We had an amazing time at the incredible science incursion. We watched some cool clips about how one big continent called Pangea got split into seven smaller continents and how Earthquakes, tsunamis, tornados and cyclones were made. We learnt that we are standing on the crust of the earth and if you could look through the ground you would see that there are different layers under the crust that would keep going towards the core.

By Laura and Adrian

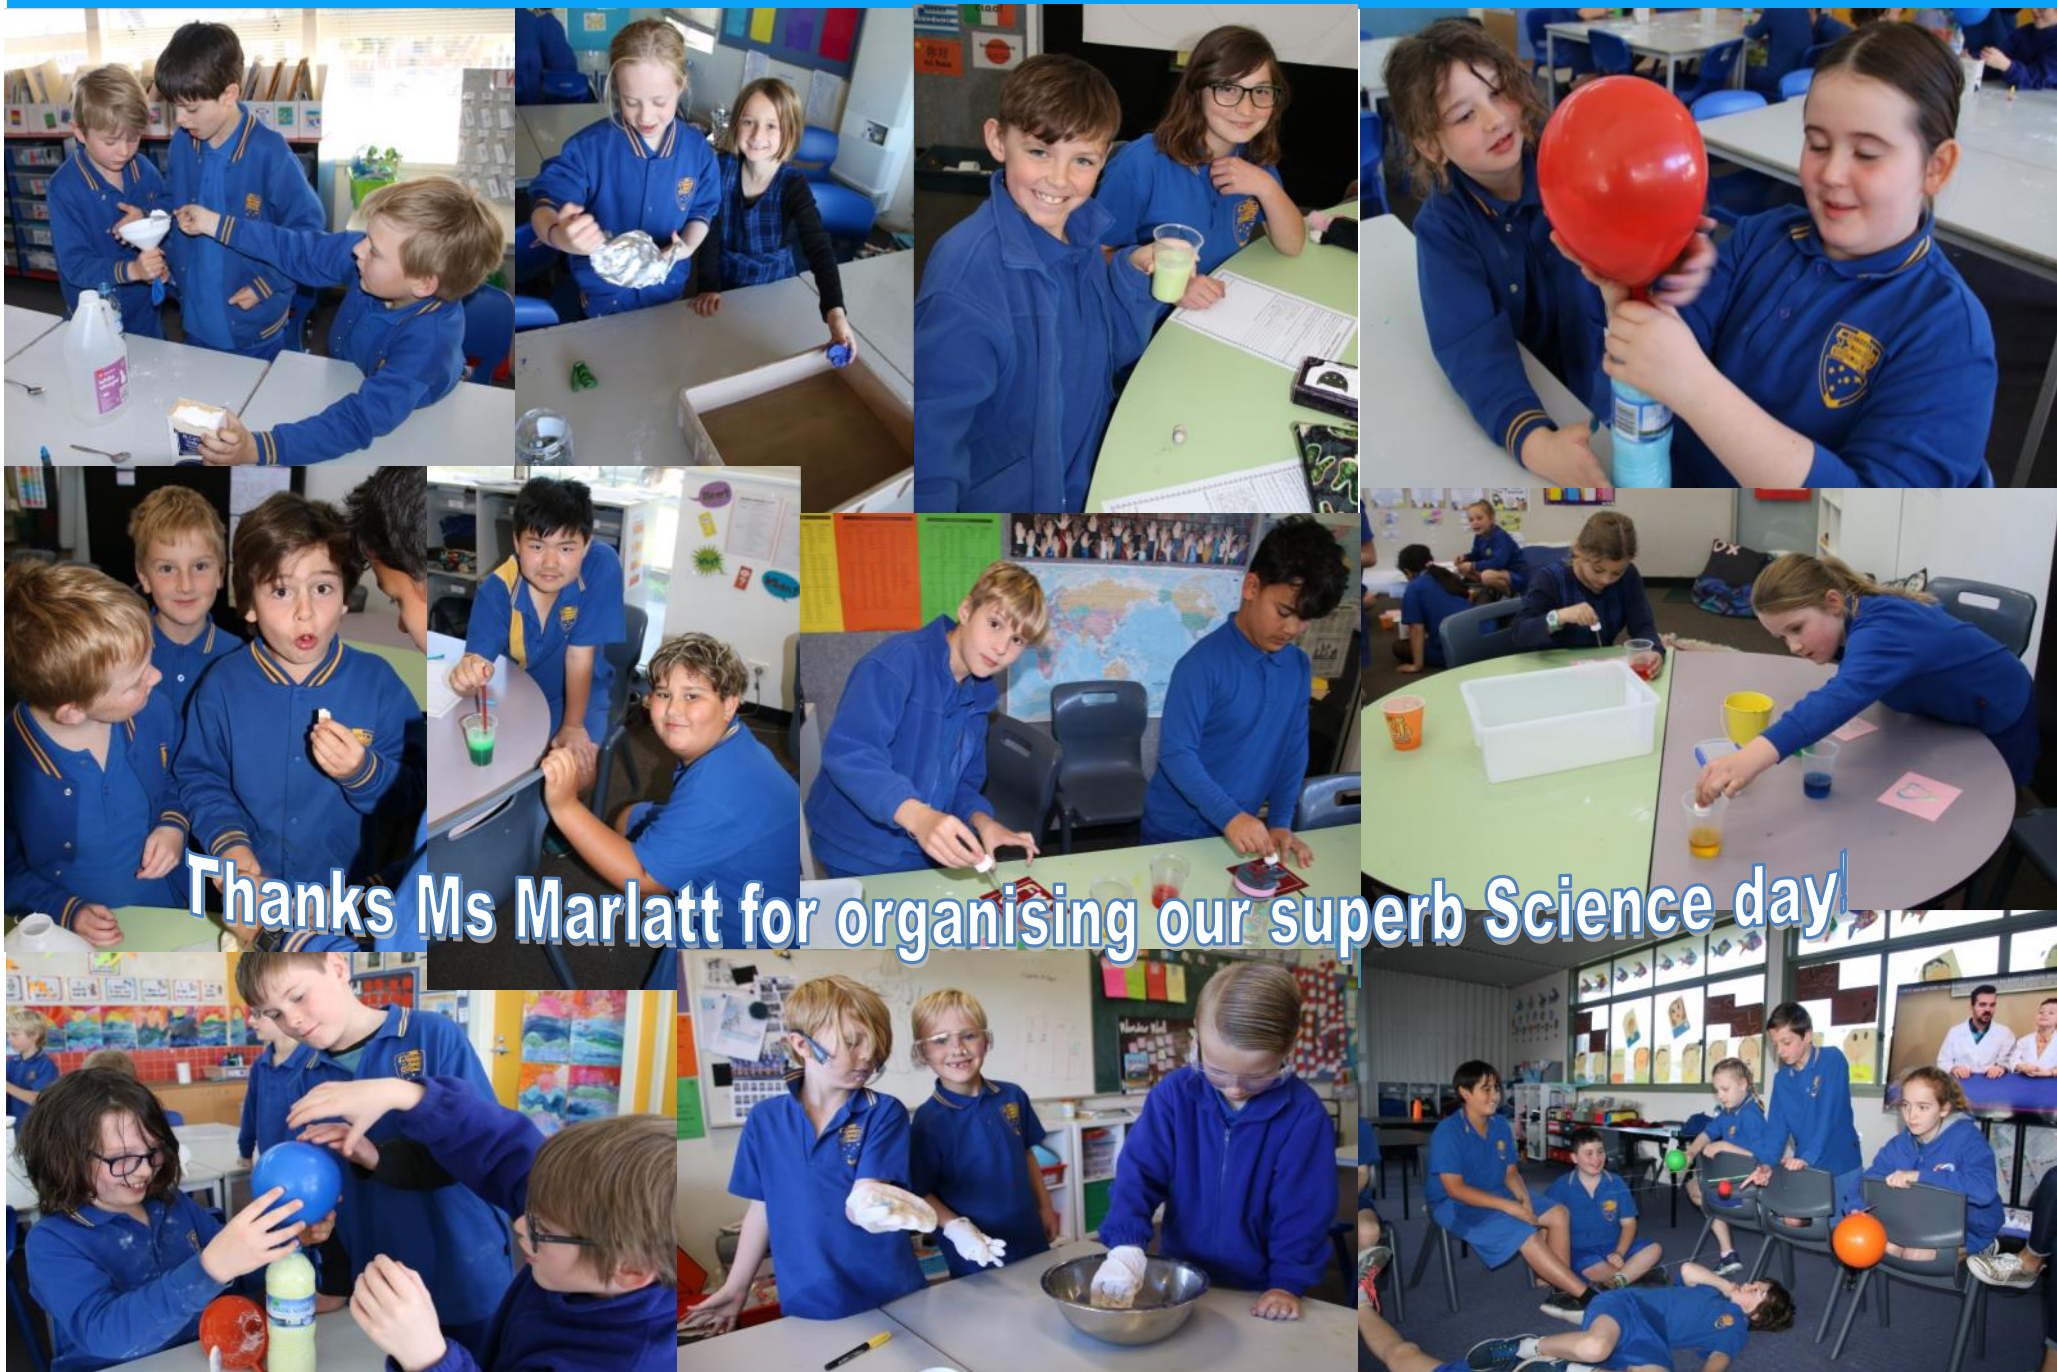

Year 4 Inquiry

This Term the year 4's have been working around their big question for this terms inquiry unit, "How do people plan an overseas trip that suits their wants and needs? The Year 4's had to pick a country from either Africa or South America, then we had to make a brochure for a couple with all the information for the flights, accommodation and activities you are going to do for a 10 day trip. First you had to plan it on the computer. Then you had to write it on your brochure. if anyone reading this is interested in going to South America or Africa come visit the year 4's, because they've got the trip for you!

SCIENCE DAY

YEAR 5/6

Crazy Kids—Adam, Lachie F, Connor H and Ryan

What will you will be selling at our stall?
Lollies, chocolate and toys.
Why did you decide to sell these item's at your stall?
Its popular and kids like these items.
What was the best part about creating your own stall?
Decorating and finding out items.
What was the most challenging part of creating a stall?
Getting stock and making a budge.

Treats and Sweets—Lily, Tash, Bodea and Sofia

What will you will be selling at your stall?
Popcorn, lollies and drinks.
Why did you decide to sell these item's at your stall?
Everyone loves popcorn and lollies and it's the easi-est to sell.
What was the best part about creating your own stall?
Creating all the props and colour flags and design-ing our own business.
What was the most challenging part of creating a stall?
Getting everything set up and buying all the things we need for only \$40.

The Slushy Shack— Ollie, Riley, Jackson and Jake

What will you will be selling at your stall?
Premier fresh cola and raspberry flavoured slushies straight from the blender.
Why did you decide to sell these item's at your stall?
Because our data proved that slushies were extremely popular.
What was the best part about creating your own stall?
Drinking free slushies and watching the mon-ey roll in.
What was the most challenging part of creating a stall?
BROKEN BLENDER! (its now fixed)

Stickies—Lola, Noah, Xavier and Sylvia

What will you will be selling at your stall?
Stickers and bookmarks.
Why did you decide to sell these item's at your stall?
Because no one else was selling them.
What was the best part about creating your own stall?
We could design our own stickers.
What was the most challenging part of cre-ating a stall?
Getting people to buy them.

Sugar Rush—Poppy, Nektarios, Tyler L and Sophie

What will you will be selling at your stall?
Lolly cones, multi-coloured popcorn and a lucky dip.
Why did you decide to sell these item's at your stall?
Because people weren't selling these items and they attract customers.
What was the best part about creating your own stall?
Having fun and being stall holders.
What was the most challenging part of cre-ating a stall?
Organising everything.

Outback Donuts—Marius, Luke M, Declan and Shannon

What will you will be selling at your stall?
Jam filled donuts, iced donuts and cinnamon donuts.
Why did you decide to sell these item's at your stall?
Because we thought it would stand out as no one else was selling them.
What was the best part about creating your own stall?
Decorating it the way we wanted and including the outback theme.
What was the most challenging part of creating a stall? Getting the products before we sold them as we had to pre-order them before the day.

Kids Treasure—By Fletcher, Ollie, Daniel, Ethan F and Josh 5/6D

Hi our team, Kids Treasure are fundraising for people with Coates disease and other eye diseases. The charity we have chosen is the Jack McGovern Foundation. They help people all over the world with special needs and people with disabilities associated with Coates disease and other eye diseases.

Team Sugar—By Airlie, Amalie, Evie and Maya

We have chosen Youth Homelessness for our charity because it is a charity that really needs donations. It is where young kids (our age) live on the streets with no food, water, shelter or even a family. Together we though that it was the best option because imag-ine if that was us living in those conditions and needed help.

AFL ROADSHOW

Splash! Mrs Harridge got soaked with freezing cold water. Mrs Harridge was wearing a wetsuit. She was even wearing a snorkel. Mrs Harridge was freezing, I nearly got wet too. Anika 2C

Mr McMaster 5/6A

~ What was your favourite activity at the AFL Roadshow??

The goal kicking and seeing the kids have a go at kicking the football .

Luca 3B

What team do you want to win the Grand Final?
I would like Melbourne to win after 54 years and for Neale Daniher.

Abbie 1A What team do you go for ?

I go for and love St Kilda.

Who is your favourite player? Big Nick

Tom 3A

What was your favourite part of it?

All the awesome and fun activities.

The crowd goes wild. Every student shouting "Dump Mr Schneider!" Everybody jumping and catching and marking, crawling, twisting and turning. Kade

Milla 4A Who was the funniest teacher that got ice poured on their head?

The funniest teacher was Mr Chalwell.

Maddy 1B Who is your favourite AFL player ?

Dustin Martin because of his awesome kicks.

The crowd goes wild when Jacob takes a mark. Jacob fell down. Yay, goes the other team. "Free! Free!" shouted Jacob's team. Solomon 2C

BOOK WEEK
