

LEGO club is an educational program, designed to give students of all ages a platform to share, learn and interact with other like-minded students. A fun class for students to feel safe to explore imagine and create using the worlds favourite building blocks.

★ Science and Technology:

Students explore the world of powered mechanisms and simple machines, using age appropriate LEGO ® Education kits to complete their build.

★ Creativity and imagination:

Students engage with LEGO® pieces to complete puzzles, games and challenges without instructions and become Master Builders!

Key STEM Learning Values:

Physical Science: The way objects move depends on a variety of factors including their size and shape: a push or a pull affects how an object moves or changes shape

Engineering Principals and systems: Explore how technologies use forces to create movement in designed solutions

Materials and technologies specialisations: Explore the characteristics and properties of materials and components that are used to create designed solutions

The classes will begin in term 1, Monday the 15th of February, afterschool, at a cost of \$140 per student. The course will be held at Edithvale Primary School.
